#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

This is the fourth office action for application number 10/079,804, Arm Apparatus for Mounting Electronic Devices with Cable Management System, filed on February 20, 2002. This application is a divisional of application number 09/406,006, filed September 24, 1999.

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 11, 2004 has been entered.

### ***Drawings***

The drawings were received on February 11, 2004. These drawings are approved.

### ***Claim Objections***

Claims 31 are objected to because of the following informalities: in claim 31, line 3, "said second end coupling" appears to be incorrect and should be --said first end coupling-- and bridging lines 3 and 4, "said first end coupling" should be --said second end coupling--, based on the claim terminology previously cited in claim 22, the second end coupling has been designated as element 142, see lines 10-11 and line 2 of claim 25; and the first end coupling has been designated as the means for attaching the device, i.e., element 144, see

lines 8-9 in claim 22 and line 3 of claim 25, also see claim 50, lines 18 and 19 and claim 51, lines 15 and 16 for the same informalities. Appropriate correction is required.

Claims 45, 46, 48, and 49 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The claims are redundant, the subject matter in claims 45 and 46 is now included in independent claim 22, from which the claims directly or indirectly depend from, see lines 6-7 and the subject matter of claims 48 and 49 is now included in independent claim 34, see lines 6-7.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 47 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 47 recites the limitation "said second end coupling," bridging lines 2 and 3". There is insufficient antecedent basis for this limitation in the claim.

### ***Allowable Subject Matter***

Claims 22-44 and 50-53 are allowed.

Claim 47 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the primary reasons for the indication of allowable subject matter in the above-mentioned claims are the limitations of a forearm extension having a body and a coupling disposed at a first end of the body, means for attaching a device at a second end, and wherein the coupling has a wall comprising a slot, the interior of the body in communication with the slot by a passageway formed therewith, now included in independent claims 22, 34, 50-53, in combination with the other elements recited in the respective claims, which is not found in the prior art of record.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anita M. King whose telephone number is (703) 308-2162. The examiner can normally be reached on Monday-Friday.
